

Amthor Tank Trucks

At Amthor, our mission is to thoroughly understand and meet your — our valued customers' and future customers' — needs by employing our decades of experience in design, engineering, customization and service to build state-of-the-art tanks for the refined fuel, vacuum, propane, portable restroom, water and specialty tank truck industries that increase efficiency, productivity and, in the end, make your teams' work easier.

Down the road, our vision is to be the worldwide leader and role model in the industries we serve, helping to set the standards for excellence in design, engineering, sustainability, corporate responsibility and service. All this is possible with your help, input and support.

Everyone at Amthor is proud of our Made-in-America (100%!!) product line and the fact that you can always speak to an Amthor when you call. We are dedicated every day to the success of our stakeholders.

Sincerely,

Brian and Arnold "Butch" Amthor
